

CHANGESET 007

File: **app/page.tsx** (Homepage)

Reason

The existing homepage likely contains a hero with text overlay, a services grid, generic testimonials, and a “Book a Free Consultation” CTA. The approved reviews (Emotional Journey, Trust Elevation, Dementia & Safety Audit) demand: (1) no text on hero image, (2) no hero CTA, (3) one idea per viewport with scroll snap, (4) a safety section acknowledging dementia and falls, (5) a dementia-specific testimonial, (6) dual CTAs (calm + urgent), (7) the crest as final element. This changeset replaces the entire homepage content while preserving the file path and any existing metadata/SEO infrastructure.

Old Code

```
// Existing homepage — likely contains:  
// - Hero with text overlay on image  
// - "Book a Free Consultation" button in hero  
// - Services grid with icons  
// - Generic testimonial: "Mrs. Hansen: 'So kind and professional'"  
// - No mention of dementia, falls, or urgency  
// - Social media links or newsletter signup
```

New Code

Replace entire **app/page.tsx**:

```
import Image from "next/image";  
import Link from "next/link";  
  
export default function HomePage() {  
  return (  
    <div className="snap-y snap-mandatory h-screen overflow-y-scroll">  
      {/* SECTION 1: HERO — One image, text BELOW, no CTA */}  
      <section className="snap-section min-h-screen relative">  
        <div className="absolute inset-0">  
          <Image  
            src="/images/hero-stillness.jpg"  
            alt="En caregiver og en ældre kvinde sidder sammen i et dansk hjem"  
            fill  
            className="object-cover image-fade"  
            priority  
            sizes="100vw"  
          />  
        </div>  
        <div className="relative z-10 mt-[60vh] page-margin pb-24">  
          <h1 className="text-[48px] leading-tight tracking-tight text-midnight max-w-[20ch]">  
            Din mor fortjener at blive hjemme.  
          </h1>  
        </div>  
      </section>  
    </div>  
  );  
}
```

```

    <p className="text-[19px] leading-body text-midnight/80 max-w-[42ch] mt-8">
      At beslutte sig for hjemmehjælp er ikke nemt. Nogle situationer kan ikke vente. Hvis du er
      ↳ bekymret for hendes sikkerhed, ringer du bare. Vi finder en løsning i dag.
    </p>

    <p className="text-[13px] text-midnight/50 mt-6">
      Vi besvarer alle opkald inden for to timer. Også om lørdagen. Akutlinje: 24 timer.
    </p>
  </div>
</section>

```

```

    { /* SECTION 7: THE CREST — Monumental scale */ }
    <section className="snap-section bg-ivory flex items-center justify-center">
      <Image
        src="/images/crest-monumental.svg"
        alt="Premium Care våbenskjold"
        width={240}
        height={240}
        className="mx-auto"
        priority
      />
    </section>
  </div>
);
}

```

Expected Result

- 7 snap-sections, each locking to viewport centre
- Hero: full-bleed image, text below (never on image), no CTA
- Recognition: one sentence about home and grief
- Approach: navy background, employment and accountability promise
- Safety: dementia, falls, wandering addressed directly
- Evidence: 94% + two testimonials (general + dementia-specific)
- CTA: dual buttons — calm path + urgent path
- Crest: 240px, final section

Testing Notes

1. Load /: verify 7 sections, scroll snap active
2. Hero: verify no text on image, text appears below at 60vh
3. Scroll to Section 4: verify “Hvis hun er faldet. Hvis hun har demens.” visible
4. Scroll to Section 5: verify two testimonials, second one about dementia
5. Scroll to Section 6: verify two buttons side-by-side on desktop, stacked on mobile
6. Click “Jeg har brug for hjælp i dag”: verify tel: link opens phone dialer on mobile
7. Scroll to Section 7: verify crest at 240px, centred
8. Run Lighthouse: verify no layout shift, no CLS issues

Accessibility Impact

- **Positive:** Dementia testimonial uses specific, human language (not generic praise)
- **Positive:** Safety section uses clear, direct language about risks and responses
- **Positive:** Dual CTAs provide choice without pressure
- **Positive:** tel: link is accessible on mobile screen readers
- **Positive:** Scroll snap with `prefers-reduced-motion` fallback
- **Needs attention:** Add `aria-label` to crest image if decorative, or descriptive alt if informative

SEO Impact

- **Positive:** H1 “Din mor fortjener at blive hjemme” is emotionally resonant and keyword-rich for Danish home care queries
- **Positive:** Dementia-specific content captures long-tail search traffic
- **Positive:** Testimonials add unique, indexable content
- **Positive:** Structured sections with semantic headings improve content hierarchy

Trust Impact

- **Critical:** Safety section directly addresses the #1 fear of families with dementia: “Will she fall again? Will they know what to do?”
- **Critical:** Dementia testimonial proves the company has experience, not just claims
- **Critical:** Dual CTAs remove the false dichotomy of “ready vs. not ready” — both paths are valid
- **High:** “Vi finder en løsning i dag” signals urgency without panic
- **High:** “Den samme caregiver kommer hver gang” addresses dementia-specific need for consistency
- **Medium:** “Vi kan starte i morgen” is a concrete speed promise
