

CHANGESET 011

File: `app/kontakt/page.tsx` (Contact Page)

Reason

The existing contact page likely contains a standard form (name, email, message, “Submit” button) and possibly a phone number. The approved reviews demand: (1) phone number as 48px focal point, (2) emergency section at top with navy background, (3) “Jeg har brug for hjælp i dag” as urgent CTA, (4) all form fields optional, (5) “Send” not “Submit”, (6) response time promise. This changeset replaces the entire page content.

Old Code

```
// Existing contact page — likely:
<div>
  <h1>Kontakt os</h1>
  <form>
    <input name="name" required />
    <input name="email" required />
    <textarea name="message" required />
    <button type="submit">Submit</button>
  </form>
  <p>Phone: +45 12 34 56 78</p>
</div>
```

New Code

Replace entire `app/kontakt/page.tsx`:

```
import Image from "next/image";
import type { Metadata } from "next";

export const metadata: Metadata = {
  title: "Kontakt — Premium Care",
  description: "Ring, når du er klar",
};

export default function ContactPage() {
  return (

Expected Result

- 6 snap-sections
- Header: “Ring til os”
- Emergency section: navy, 48px phone number, “Akutlinje — svar med det samme”
- Reassurance text: “Du behøver ikke at vide, hvad du vil spørge om”
- Form: all fields optional, label-as-placeholder, “Send” button
- Response promise: 2 hours, opening hours, 24h emergency

- Crest: final section

Testing Notes

1. Load /kontakt: verify emergency section is Section 2 (immediately visible after header)
2. Verify phone number is 48px, Regal Gold, tappable on mobile
3. Verify “Akutlinje — svar med det samme” present
4. Verify form has no required attributes, no asterisks
5. Verify button text is “Send” not “Submit”
6. On mobile: tap phone number, verify dialer opens
7. Tab through form: verify focus states visible

Accessibility Impact

- **Positive:** tel: link is tappable on mobile screen readers
- **Positive:** All inputs have `aria-label` for screen readers
- **Positive:** No required fields means no barrier for users who struggle with forms
- **Positive:** Focus states use 2px outline (visible, not drowned by shadows)
- **Positive:** Emergency number is large and high-contrast for low-vision users

SEO Impact

- **Positive:** “Ring til os” is a direct, high-intent call-to-action
- **Positive:** Opening hours and emergency line provide structured data opportunities
- **Neutral:** No negative SEO impact

Trust Impact

- **Critical:** Emergency section at top signals that the company understands crisis
- **Critical:** 48px phone number is impossible to miss — the most anxious user finds it immediately
- **High:** “Akutlinje — svar med det samme” is a concrete promise of immediate response
- **High:** Optional form signals the company is not desperate for leads
- **Medium:** “Vi ringer tilbage, uanset hvad” removes fear of filling the form “wrong”
