

CHANGESET 014

File: `app/tillid/page.tsx` (Trust Centre Page — NEW)

Reason

No existing Trust Centre page. The Trust Elevation Review and Municipal Procurement Review demand: (1) a dedicated page for transparency, (2) the guarantee repeated prominently, (3) document library with 8+ downloadable PDFs, (4) quality metric (100% complaint response), (5) verification statement, (6) direct phone contact. This changeset creates a new page. It also adds two new documents: "Demens- og faldprotokol" and "Sikkerhedsvurdering skabelon" per the Dementia & Safety Audit.

Old Code

No existing file. Create `app/tillid/page.tsx`.

New Code

Create `app/tillid/page.tsx`:

```

Add to navigation: Update NAV_LINKS in components/Navigation.tsx (CHANGESET 004) to include:

```
{ href: "/tillid", label: "Tillid" }
```

Note: Two new documents added per Dementia & Safety Audit:

- Demens- og faldprotokol (Dementia and Fall Protocol)

- Sikkerhedsvurdering skabelon (Home Safety Assessment Template)
-

Expected Result

- 6 snap-sections
- Header: “Tillid” with “Tillid bygges ikke af ord. Den bygges af dokumenter.”
- Guarantee: repeated in navy section
- Document library: 10 documents as horizontal “spines” with title, date, size, download arrow on hover
- Quality metric: 100% complaints answered within 48 hours
- Verification statement + phone number
- Crest: final section

Testing Notes

1. Navigate to /tillid: verify page loads
2. Verify “Demens- og faldprotokol” and “Sikkerhedsvurdering skabelon” in document list
3. Hover over document rows: verify background lightens and “Download →” appears
4. Click any document: verify PDF download starts
5. Verify “100%” number is on its own section, 64px, Regal Gold
6. Verify phone number is tappable on mobile
7. Mobile: verify document list is readable, rows are tappable

Accessibility Impact

- **Positive:** Document rows are large touch targets (full-width clickable)
- **Positive:** Hover state uses both opacity change and text tracking (not colour alone)
- **Positive:** Semantic anchor tags with `download` attribute
- **Positive:** High contrast on navy sections
- **Needs attention:** Add `aria-label` to download arrow indicating “Download [document name]”

SEO Impact

- **Positive:** “Tillid” is a trust signal keyword in Danish
- **Positive:** Document titles provide unique, indexable content
- **Positive:** “Demens- og faldprotokol” captures specific search queries
- **Positive:** “100% klager besvaret” is a competitive differentiator

Trust Impact

- **Critical:** “Hver eneste dokument er verificeret af uafhængig part” is the ultimate transparency statement
- **Critical:** “Demens- og faldprotokol” proves the company has written protocols for the exact situations families fear
- **High:** “Sikkerhedsvurdering skabelon” means families can see the actual assessment form before care starts
- **High:** 100% complaint response rate is a concrete operational commitment
- **Medium:** The guarantee repeated here ensures every visitor sees it, regardless of which page they enter from
