PART 00 — OPENING

00.01 About this Manual

This manual is the operational expression of the Premium Care Brand Bible v1.0. Where the Bible answers *why* the brand looks and speaks as it does, this manual answers *what* the identity is and *how* to use it correctly.

Every page of this manual has passed the Five Design Tests (§00.04). Every application shown is a real specification, not a suggestion. Every measurement is exact, not approximate.

This manual is not a reference book to browse. It is a rulebook to follow.

00.02 Document Hierarchy & Governance

Document	Governs	Question it answers	Authority
Brand Bible v1.0	Strategy, meaning, doctrine	<i>Why?</i>	Executive Board —frozen
Editorial Design System v1.0	Publication & page design	<i>How is a page composed?</i>	Custodian —frozen
Master Implementation Specification v1.0	Production & implementation	<i>How is it reproduced?</i>	Custodian —technical review 12 months
Vector Origination Specification v1.0	Master artwork production	<i>How is the logo drawn?</i>	Production —frozen with master
This Manual	Identity usage & application	<i>What is it and how do I use it?</i>	Custodian —updated with each new application approval

Conflict resolution: If any page of this manual conflicts with the Bible, the Bible prevails. If this manual conflicts with the EDS, the EDS prevails on page composition. If this manual conflicts with the Specification, the Specification prevails on production tolerance. When in doubt, escalate to the Brand Custodian.

00.03 How to Use this Manual

For designers: Start with Part 02 (Logo), Part 03 (Colour), and Part 04 (Typography). Then proceed to the application relevant to your commission (Part 07). Every application section contains the exact specifications needed to produce artwork without further briefing.

For marketers: Start with Part 01 (Brand) and Part 09 (Social Media). Understand the voice before you write; understand the visual rules before you brief a designer.

For suppliers (printers, sign fabricators, embroiderers, vehicle wrappers): Start with the Master Implementation Specification v1.0. This manual shows you *what* the finished application looks like; the Specification tells you *how* to produce it.

For municipal partners: Part 02 (Logo on Municipal Documents), Part 07.25 (Tender Cover), and Part 11 (Templates) contain the specifications for compliant, on-brand tender submissions.

For new employees: Part 01 (Brand Story and Values) and Part 12.10 (Training & Induction) are your starting point. The brand is delivered by people, not PDFs.

00.04 The Five Design Tests

Every artefact — page, screen, sign, stitch, sentence — must pass all five before release. These are not guidelines. They are gates.

1. Dignified? Would the person in our care be proud to see this? Would they feel respected, not pitied? Would they recognise themselves as a person, not a patient?

2. Calm? Does it reduce anxiety rather than create urgency? Does it give information room to breathe? Does it avoid clutter, noise, and visual shouting?

3. Danish? Does it feel rooted in Danish craft and restraint? Does it honour the tradition of Danish care? Would a municipal assessor recognise it as a Danish standard?

4. Durable? Will it look correct in ten years? Does it avoid trends, gimmicks, and fashionable effects? Would it embarrass us if revisited in 2036?

5. Useful? Can a printer, developer, embroiderer, or caseworker act on it without asking questions? Is the specification complete? Is the file correct? Is the format appropriate?

Failure of any single test returns the work to the studio. No exceptions. No appeals. The Five Tests are the brand's immune system.

00.05 Approval & Version Control

This manual is Version 1.0, released upon approval of the Creative Director Presentation and completion of the vector master origination.

Approval authority:

- Part 00–05 (Logo, Colour, Typography, Graphic Language): Executive Board + Brand Custodian
- Part 06–09 (Photography, Applications, Digital, Social): Brand Custodian
- Part 10–11 (Motion, Templates): Brand Custodian + Digital Lead
- Part 12 (Governance): Executive Board

Version numbering:

- v1.0: Initial release (this document)
- v1.x: Corrections and clarifications (Custodian approval)
- v2.0: Governed changes to identity elements (Executive Board, Bible amendment first)

Distribution:

- Master PDF: Custodian-held, fully tagged and accessible
- Working PDFs: Distributed to approved agencies and suppliers with transmittal note
- Digital excerpts: Available on the brand intranet (password-protected)
- Printed copies: Numbered and signed out; return required on departure

Every distributed copy is watermarked with the recipient's name and date. Uncontrolled copies are a brand risk.

End of Part 00 — Opening. The manual continues with Part 01: The Brand.
