1. BRAND PHILOSOPHY & DESIGN VISION

Who We Are

Premium Care is a Danish care organisation committed to delivering compassionate, person-centred care with professionalism, dignity and excellence. Our identity centres on a heraldic crest depicting two figures — a caregiver and an elder — meeting across a Nordic cross, framed by a royal crown. It signals heritage-grade reliability and the everyday human warmth of quality care.

Mission

To deliver dependable, compassionate care that lets people live with security and dignity — every single day.

Tagline

Omsorg · Tryghed · Hver dag. (Danish: “Care · Security · Every day.”)

Brand Values

- Dignity in every interaction
- Reliability people can build their lives around
- Compassion delivered with quiet confidence
- Professionalism without coldness
- Excellence in every detail

Design Vision

This uniform collection is not merely functional clothing. It is a **visual manifestation of the Premium Care promise**. Every stitch, every colour choice, every fabric selection communicates:

- **Confidence** — Staff look capable and in control
- **Warmth** — Residents feel safe and welcomed
- **Trustworthiness** — Families see professionalism
- **Premium Quality** — The organisation signals investment in its people
- **Scandinavian Elegance** — Minimal, timeless, human-centred

The One-Family Principle

The collection should look like one family. Every role belongs to the same organisation. Differentiation happens through:

- Subtle colour hierarchy
- Trim colours
- Embroidery placement
- Piping details
- Garment cut variations

Never by making completely different uniforms. Residents should immediately recognise: “This person works for Premium Care” while still identifying their role.

2. DESIGN INSPIRATION & MOOD DIRECTION

Scandinavian References

- **Apple** — Precision, minimalism, human-centred design
- **Bang & Olufsen** — Premium materials, timeless form
- **Georg Jensen** — Craftsmanship, understated luxury
- **Muuto** — Soft minimalism, warm functionality

- **Audo Copenhagen** — Quiet sophistication
- **Normann Copenhagen** — Playful yet refined simplicity
- **Danish Municipal Healthcare** — Practical dignity, community care
- **Private Rehabilitation Hospitals** — Clinical excellence, warm environments

Design Principles

1. **Minimalism** — Remove everything non-essential
2. **Timeless Elegance** — Avoid trends; design for 10+ year relevance
3. **Comfort** — 12-hour shift wearability
4. **Luxury** — Premium feel in every touchpoint
5. **Practicality** — Danish healthcare regulation compliance
6. **Human-Centred Design** — Designed around the wearer’s day

Mood Direction

- Warm, natural, candid photography
- Real moments of care, never staged or clinical
- Premium Danish care home interiors with Scandinavian design
- Diverse staff, realistic elderly residents
- Natural light, soft shadows, heritage materials

3. COLOUR HIERARCHY & ROLE SYSTEM

Primary Brand Colours

Colour	HEX	RGB	CMYK	Usage
Deep Navy	#111C34	17·28·52	88·76·46·51	Primary background, dominant field
Heritage Red	#911B0C	145·27·12	24·96·100·31	Shield, accents, key highlights
Royal Gold	#DABD75	218·189·117	16·25·61·5	Wordmark, figures, premium accents

Secondary & Support Colours

Colour	HEX	RGB	CMYK	Usage
Light Gold	#F5E4A3	245·228·163	5·8·40·0	Highlights, gold gradients, hover states
Ink Navy	#0E1A32	14·26·50	89·77·47·56	Deep shadow, footers, text on light
Cream	#FBF7EA	251·247·234	1·2·8·0	Light backgrounds, reversed layouts

Role Colour System

Role	Primary Colour	Accent/Trim	Rationale
Founders	Executive Charcoal #2D2D2D	Royal Gold #DABD75	Authority, prestige, understated power
Team Lead	Deep Navy #111C34	Heritage Red #911B0C	Leadership, visibility, command
Planner	Stone Grey #8A8A8A	Ink Navy #0E1A32	Corporate, neutral, professional
Human Resources	Warm Beige #C4B49A	Royal Gold #DABD75	Welcoming, approachable, warm
Physiotherapist	Soft Sage #A8B5A0	Muted Olive #7A8B6E	Movement, nature, rehabilitation
Occupational Therapist	Muted Olive #7A8B6E	Soft Sage #A8B5A0	Complementary to physiotherapy, earth tones
Registered Nurse	White #FFFFFF	Heritage Red #911B0C	Clinical purity, trust, medical authority
Cleaner	Warm Grey #9E9E9E	Cream #FBE7E6	Practical, understated, professional housekeeping
Social & Health Worker	Premium Sage #6B8E6B	Royal Gold #DABD75	Signature role —warmth, compassion, trust
Social & Health Assistant	Blue Grey #7A8FA3	Light Gold #F5E4A3	Close to SHW but differentiated, calm, supportive

Colour Usage Ratios

- Deep Navy should dominate — roughly 60% of any layout or garment field
- Gold and Cream provide the supporting 30% — type, accents, light fields
- Heritage Red is a 10% accent — used deliberately, never as a large flat
- Role colours are applied as 15-20% of garment surface (trim, piping, interior details)

Critical Rule

Never use bright colours. Never use childish colours. Everything remains elegant, muted, and premium.

4. THE ROLL-LOCK 3/4 SLEEVE SYSTEM

Danish Regulatory Context

Danish healthcare follows the Scandinavian “bare below the elbows” (BBE) principle: clinical staff must have hands and forearms free from clothing during direct patient contact to enable proper hand hygiene and reduce cross-contamination. This applies to all roles with direct resident contact.

The Innovation: Roll-Lock 3/4

Premium Care uniforms honour the Danish BBE mandate without surrendering to generic short sleeves. Our 3/4 sleeves are tailored to roll and lock securely above the elbow for clinical practice, then release to return to their elegant length for corridors, offices, and community visits.

One garment. Two modes. Zero compromise.

Technical Specification

Sleeve Length

- **Standard position:** 3/4 length, ending 5–7 cm below the elbow
- **Clinical position:** Rolled and locked above the elbow, fully BBE compliant

Fit & Cut

- Tailored close to the forearm — never loose or dangling
- Set-in sleeve with forward seam placement (Scandinavian tailoring)
- When rolled, the sleeve sits flat against the arm with no bulk

Roll-Lock Mechanism

- **Concealed interior button tab** at mid-bicep (interior only, invisible when sleeve is down)
- **Corresponding loop** sewn into interior cuff band
- **Alternative:** Magnetic snap tab (premium, silent, no-snag)
- When engaged, sleeve is locked securely above the elbow
- When released, sleeve returns to 3/4 length with memory recovery

Fabric Requirements for Roll-Lock

- **4-way stretch** with 12% elastane content
- **Memory recovery** — returns to shape after rolling/unrolling
- **Wrinkle resistance** — maintains crisp appearance after repeated rolling
- **Colourfast** — no fading at stress points

Cuff Detail

- Narrow, clean band (no bulky cuffs)
- **Role-specific trim colour** visible at cuff edge
- When rolled to clinical position, a 2 cm band of role accent colour becomes visible — a subtle branding moment that signals “sleeve is in clinical mode”
- No exterior buttons, no dangling elements, no tie-cuffs

Role Application

Role	BBE Required?	Roll-Lock Implementation
Founders	No	Full 3/4 sleeve, no mechanism needed
Team Lead	Occasionally	Roll-Lock 3/4 in Heritage Red trim
Planner	No	Full 3/4 sleeve, no mechanism needed
